

Security Standardisation Research Conference 2023

@ Eurocrypt 2023, Lyon, France – 22-23 April 2023

ssresearch2023.github.io

* * * Call for Papers * * *

Papers offering research contributions to the area of security standardisation are solicited for submission to the SSR 2023 conference. SSR also invites Systematisation of Knowledge (SoK) papers and vision papers relating to security standardisation. Papers may present theory, applications or practical experience in the field of security standardisation, including, but not limited to:

Access control	History of standardization	Privacy regional and international standards
Biometrics	Identity management	RFID tag security
Blockchain	Industrial control systems security	Risk analysis
Cloud computing security/privacy	Internet of things security/privacy	Secure messaging
Critical national infrastructure protection	Internet security	Security controls
Standards consistency and comparison critiques of standards	Interoperability of standards	Security management
Cryptanalysis	Intrusion detection	Security protocols
Cryptographic protocols	Key management and PKIs	Security services
Cryptographic techniques	Standardisation process management	Security tokens
Data protection and law/regulation	Mobile security	Smart cards
Digital trust	Network security	Telecommunications security
Evaluation criteria	Open standards and open source	Trusted computing
Formal analysis of standards	Payment system security	Usability
	Post-quantum security	Web security

Submitted papers must comply with the guidelines communicated on the [SSR 2023 website](https://ssresearch2023.github.io). In particular, they must be original, unpublished, anonymous and not concurrently submitted, written in English and at most 23 pages in Springer LCNS format incl. references, but not counting appendices. Accepted papers will be published via Springer's Lecture Notes in Computer Science (LNCS).

Important dates	Submission deadline:	5 January 2023	
	Author notification:	9 February 2023	
	Conference:	22–23 April 2023	(Eurocrypt: 23–27 April 2023)

Program committee

Nina Bindel (SandboxAQ)	Shin'Ichiro Matsuo (Georgetown University)
Joppe Bos (NXP Semiconductors)	Catherine Meadows (Naval Research Laboratory)
Sofia Celi (Brave)	Maryam Mehrmezhad (Royal Holloway, University of London)
Gareth T. Davies (Bergische Universität Wuppertal)	Chris Mitchell (Royal Holloway, University of London)
Jean Paul Degabriele (Cryptography Research Center, TII)	Elisabeth Oswald (University of Klagenfurt)
Benjamin Dowling (University of Sheffield)	Kenneth Paterson (ETH Zurich)
Marc Fischlin (TU Darmstadt)	Christopher Patton (Cloudflare)
Scott Fluhrer (Cisco Systems)	Bertram Poettering (IBM Research - Zurich)
Felix Günther (PC Chair; ETH Zurich)	Kazue Sako (Waseda University)
Britta Hale (Naval Postgraduate School)	Stanislav Smyshlyaev (CryptoPro)
Julia Hesse (PC Chair; IBM Research - Zurich)	Christoph Striecks (AIT Austrian Institute of Technology)
Christian Janson (TU Darmstadt)	Thyla van der Merwe (Google, Zurich)
Saqib A. Kakvi (Royal Holloway, University of London)	Mathy Vanhoef (Katholieke Universiteit Leuven)
John Kelsey (NIST)	Gaven J. Watson (Meta)
Markulf Kohlweiss (University of Edinburgh / IOHK)	Christopher Wood (Cloudflare)
Thalia Laing (HP Inc.)	Kazuki Yoneyama (Ibaraki University)
Giorgia Azzurra Marson (NEC)
